

Internship report

I was abroad from 14.08. - 09.09.2023 and did an internship there. I chose Malta for this stay. Malta is a group of islands in the Mediterranean Sea between Sicily and the coast of North Africa. I chose Malta because English is one of the official languages there and many international companies have settled there.

So I finished my application documents and luckily I was able to pass them on to Ms. Karstens. Ms. Karstens has very good contacts with many Maltese companies, which are always accepting interns. Thanks to her, I was quickly offered an internship at the Inlingua language school. The language school is located in the Sliema district of Malta. The language school only offers English courses for all age groups. I took care of the flight and accommodation myself. The stipendium I received from the school made everything a lot easier. I found a nice apartment for 4 weeks in Sliema and then I was ready to go.

When I arrived in Malta, I had a day to settle in. On Monday I started straight away, meeting at 09:00, I was warmly welcomed and shown around the language school. My job for the time being was to support the reception and lead the activities that were organized for the language students. My working hours were from 09:00 to 16:00.

My weekly schedule:

- Monday —>
- welcome new student
 - leading Valletta Tour in the morning and afternoon
- Tuesday —>
- Reception
 - to accompany activities for example aquarium
- Wednesday —>
- Reception
- Thursday —>
- Reception
 - to the activity Accompany for example Beach day
- Friday—>
- Preparing documents for new students
 - Reception
 - accompany to the activity for example comino excursion

I visited various beaches and bays at the weekend. For example, St. Peter's Pool or Mellieha Bay.

I also went to a spontaneous festival with other interns from the Inlingua language school.

On my last day, I received a certificate for the internship and said goodbye to everyone.

It was a really nice time, I learned and saw a lot. I was very happy with my internship. I was very involved and felt really comfortable. I would do it again and again. Malta is definitely worth a visit. Thank you for letting me have this experience.
